The following members volunteered to attend the meeting: Mayor Tolson, Councilmen Cucci, Hitchcock and Powell.

cilman Gilbert seconded the motion, which was carried by the following roll call vote: AYES: COUNCILMEN: Cucci, Gilbert, Hitchcock, Powell and Tolson. NOES: COUNCILMEN: None. ABSENT: COUNCILMEN: None.

A communication was read from Miss Lute Fraser, 25934 Cypress Street, Lomita, submitting copy of a petition recently filed with the City Council of Los Angeles and the County Board of Supervisors, signed by 32 residents or property owners of Lomita. It was requested that the City Council of the City of Torrance take cognizance of this matter and enter an official protest to the proper bodies against the location of a dump for the purpose of burning rubbish in the proposed site of an abandoned quarry in the Palos Verdes Hills in the vicinity of Walteria, California, this being the subject of the protest presented to the above named bodies in the form of a petition.

Councilman Hitchcock reported Mr. Weston had advised that it had been rumored that the City of Los Angeles is contemplating establishing a dump on his ranch (Mr. Weston's), although Mr. Weston had not been contacted relative to the matter. Mr. Weston had advised, however, Mr. Hitchcock said, that there are pits on the ranch suitable for dumping certain types of debris. Mr. Hitchcock suggested meeting with Mr. Weston in the near future for discussion of the matter, as, he pointed out, the City Dump is rapidly becoming filled to capacity and it will be necessary for the City to take some action in this matter in the near future.

After a short period of discussion, it was agreed that Mr. Hitchcock should arrange a meeting date with Mr. Weston for one day next week, after 4:00 P.M., and notify the Council regarding same.

At 8:00 P.M., Mayor Tolson announced that the hour had arrived for hearing protests in connection with the petition for change of zone, submitted by Margot Grow, requesting that property along the southwest side of Cravens Avenue be rezoned from R-3 to C-1 use, and advised that the Planning Commission has recommended that this zone change be approved. The Mayor called for protests. There were none, and the Mayor so announced.

Councilman Hitchcock read a recommendation of Engineer Jain that the City Council place a provision in the rezoning ordinance that the rear and sides of all business buildings in the rezoned area be plastered, and that a brick, tile or concrete fence, six feet high, be constructed along the rear and sides of such property as adjoins alleys or streets. Engineer Jain stated that, where a portion of a residential area is rezoned to business, the general practice in other cities is to require this as a protection to the residential property adjacent.

Mr. Buxton asked whether or not this would apply to the northeast side of Cravens Avenue, stating that it is and has always been zoned for business. Mr. Jain pointed out that this applied specifically to instances where residential property is rezoned to a less restrictive use.

Councilman Cucci moved that the property along the southwest side of Cravens Avenue (described as Lots 6 to 9 inclusive, Block 11; Lots 1 to 8, inclusive, Block 13, Lots 1 to 3 inclusive, Block 14, all in Torrance Tract) be rezoned from R-3 to C-1 use, as recommended by the Planning Commission, petition for Change of Zone having been submitted by Margot Grow, and that Mr. Jain's recommendation that certain restrictions, in connection with building regulations, be accepted and made a condition of the approval of this zone change. Councilman Hitchcock seconded the motion, which was carried by the following roll call vote: AYES: COUNCILMEN: Cucci, Gilbert, Hitchcock, Powell and Tolson. NOES: COUNCILMEN: None. ABSENT: COUNCILMEN: None.

Councilman Hitchcock moved that the matter of placing the provision in the rezoning ordinance, that the rear and sides of all business buildings in areas rezoned from residential to a less restrictive use be plastered, and that a brick, tile or concrete fence, six feet high, be constructed along the rear and sides of

such property as adjoins alleys or streets, be referred to the Planning Commission for approval. Councilman Gilbert seconded the motion, which was carried unanimously.

Engineer Jain inquired whether or not referring the above matter to the Planning Commission would in any manner affect the Council's approval of the zone change requested by Margot Grow, and was assured by Mayor Tolson that the approval of the zone change would not be affected in any way whatsoever.

A petition bearing eleven signatures of property owners and/or residents of the City of Torrance was read, requesting that immediate steps be taken to complete the sidewalk beginning at the alley and ending at, and meeting with, the Torrance Boulevard sidewalk, at the northeast intersection of Torrance Boulevard and Crenshaw Boulevard. It was stated that the owner of the property in question refuses to complete the sidewalk and that the other owners in the block have paid for their sidewalks.

After a short discussion as to liability on the part of the property owner, and liability on the part of the City, Councilman Powell moved that the City Engineer be authorized to make a survey of the property and submit his estimate of the cost of the job to the City Council. Councilman Cucci seconded the motion, which was carried unanimously.

A communication was read from Jack Isen, Secretary and General Manager of the Pueblo Land Company, expressing wholehearted approval of the proposed sewer improvement on 203rd Street, Pueblo. He expressed the hope that nothing will deter or delay the project.

At this time, Mr. Harold A. Barnett, Civil Engineer, presented Modification Report No. 1, 203rd Street Sewer, to Mr. Bartlett, submitting copies of same to the City Council, and asked Mr. Bartlett to read the report with the exception of the estimates of cost, which Mr. Bartlett did. The report related that it is probable that the County Sanitation District will, in the near future, request that the proposed sewer on 203rd Street be increased in size, and will offer to pay the difference in cost between an eight inch sewer and the larger sewer. It was suggested that the report be approved and accepted, and that the hearing be continued until the next Council Meeting, March 13, 1945.

Councilman Hitchcock moved that Modification Report No. 1 relative to the 203rd Street Sewer, as read, be accepted and approved and that the hearing be continued until March 13, 1945. Councilman Powell seconded the motion, which was carried by the following roll call vote: AYES: COUNCILMEN: Cucci, Gilbert, Hitchcock, Powell and Tolson. NOES: COUNCILMEN: None. ABSENT: COUNCILMEN: None.

Clerk Bartlett reported that he had mailed out notices of the intended improvement on 203rd Street to all interested parties and had received no written or oral protests.

A communication was read from City Attorney McCall relative to the Hollywood Riviera property offered to the City for park purposes. Mr. McCall stated that he had contacted Mr. Packard of the Associated Assessment Engineers and that Mr. Packard had been of the opinion that if the Boy Scouts are to be allowed use of the park in question, the deed should be changed from "park purposes" to "public purposes." Mr. McCall stated, however, that in his opinion, if the City accepts the deed for park purposes, the City can allow the Boy Scouts to have a camp there and meet there without violating the terms of the deed.

He stated that, regarding the delinquent taxes against the property in question, ~~in question~~, in his opinion the taxes can be cancelled if the City accepts title to the land for public or park purposes.

A discussion ensued, Mr. Vaughn Scott participating. It was suggested that if the deed were changed as recommended by Mr. Packard, it would be more acceptable. Mr. Scott pointed out the difference between "Parks" and "Public Use", stating that the deed will remain as it is and be accepted with the understanding that the Boy Scouts

will have use of it so long as they use it as it should be used, or his company, the Huntington Redondo Company, will sell it for its true value in which event it will eventually develop into a sub-division.

After continued discussion, Clerk Bartlett was requested to present the resolution of acceptance, which he presented and read in full:

ABSENT: COUNCILMEN: None.

Clerk Bartlett announced results of the election held in compliance with Resolution No. 1706, which election was to determine if the various city employees wish to join the State Employees Retirement System as follows:
